

*PT Krakatau Semen Indonesia to Build Slag Grinding Plant at the Krakatau Industrial Estate in Cilegon-Banten*

*PT Krakatau Steel (Persero), Tbk. and PT Semen Indonesia (Persero), Tbk. have signed a joint venture agreement back in December 2013 in which the parties agree to establish a joint venture company, namely PT Krakatau Semen Indonesia (“KSI”). □ KSI is going to build the Grinding Machine of granulated blast furnace slag (“Slag Grinding Plant”) in Cilegon, Banten, which will require a total investment at Rp. 440 billion. □ This Slag Grinding Plant is planned to have a production capacity of 750,000 tons of granulated blast furnace slag per year.*

*LUBIS, SANTOSA & MARAMIS Law Firm has been appointed by KSI to assist them in this Slag Grinding Plant project.*
